Jeff Muller

Lead UX Designer – Enterprise & Platform Systems
Johnston, RI
jeff@jeffmullerdesign.com • 847-345-2288 • www.jeffmullerdesign.com

Summary

Lead UX Designer with 13+ years leading design for complex, regulated systems across financial services, enterprise SaaS, and safety-critical products. I modernize legacy platforms, unify fragmented products, and build the design systems and standards that let teams scale, partnering closely with engineering and executive leadership to shape product direction.

Core Expertise

Enterprise & Legacy System UX • Platform & Modular UX Architecture • Creative Problem Solving
Design Systems & Governance • Financial & Technical Software • Cross-Functional Leadership
Vendor & Stakeholder Management • UX Strategy & Validation

Education

B.F.A., Industrial Design
University of Kansas

Tools

Claude Code • Figma • Axure • HTML/CSS/JavaScript (working knowledge) • Adobe Suite

Experience

Lead UX Designer, Vice President
State Street – GlobalLink Digital | *Boston, MA | 2021 – Present*

GlobalLink Digital, a mission-critical financial platform supporting complex workflows across global markets.

- Defined and executed UX strategy to consolidate 5 legacy financial platforms into a unified enterprise system supporting $300M in annual transaction volume.
- Led migration UX that moved 1,200 users off legacy platforms in 6 months without disrupting critical operations.
- Unified the FX payment workflow, consolidating 3 legacy systems into one platform and cutting processing time from 8 minutes to 30 seconds.
- Led UX for AI embedded across the unified platform, designing for workflow efficiency, the blank-canvas problem, and human review in a regulated environment, integrated into core workflows rather than bolted on as a chatbot.
- Established a platform-wide design system and pattern library adopted by 5 internal teams and external vendors.
- Defined UX standards and governance for third-party vendors, ensuring consistency, scalability, and Section 508/WCAG accessibility.
- Advised C-suite executives on building a modern product organization, shaping team structure, roles, and hiring, and mentored junior designers on craft, systems thinking, and stakeholder communication.

Senior UX Designer
CSG (Formerly Kitewheel) | *Boston, MA | 2018 – 2021*

Senior UX designer for a web-based IDE used to design and orchestrate complex customer experiences.

- Designed an analytics tool which accounted for 30% of revenue growth.
- Led a multi-day annual roadmap planning process with product and engineering leadership, facilitating sessions to assess feasibility, desirability, and viability and to prioritize features for the year.
- Led design sprints, lean UX, and hypothesis-driven design in highly ambiguous problem spaces.
- Collaborated closely with engineering to design modular React components balancing flexibility and usability.
- Translated abstract journey and orchestration concepts into usable tools for technical and non-technical users.

Senior UX Design Consultant
Integrated Computer Solutions (ICS) | *Waltham, MA | 2012 – 2018*

- Led UX efforts on complex systems across medical devices, industrial IoT, automotive, and embedded software.
- Served as project owner on client engagements, leading the full design process, from scoping and project management to design sprints and collaborative workshops with client stakeholders.
- Designed safety-critical interfaces for medical devices under FDA/IEC constraints.
- Clients included HP, Siemens, ZOLL Medical, NFL, Bad Robot, Interscope, and Def Jam.
